GENERAL INFORMATION

NONRESIDENT TRAINING

The Chief of Naval Education and Training (CNET) is responsible for providing nonresident training in support of Occupational Standards (OCCSTDs), and Naval Standards (NAVSTDs).

Nonresident training is a self-study package designed to help a student acquire specific knowledge. Normally, a nonresident training package consists of a nonresident training course (NRTC) and a text.

Nonresident Training Course (NRTC)

An NRTC may consist of exercises, lessons, or examinations designed to assist the student in acquiring the knowledge contained in an associated text.

Texts Associated with NRTCs

The text for an NRTC may be any of the following:

1. A training manual (TRAMAN) written specifically to be used as the text for an NRTC.
2. An existing manual, directive, or instruction.
3. A commercial textbook.

Errata

Errata are often used to correct minor errors or delete obsolete information in an NRTC or text. Errata may also be used to provide instructions to the student. Normally, errata are automatically shipped with an NRTC or text.

Special Publications (SP)

Special publications are manuals or catalogs that provide information of general benefit to the performance and career development of Navy personnel. SPs DO NOT have an accompanying NRTC.

ESTABLISHING OF NONRESIDENT TRAINING

Anyone may propose a new nonresident training package. Proposals should be forwarded to CNET (ETS) via the originator's chain of command.

ADMINISTERING NONRESIDENT TRAINING

Servicing Educational Services Officers (ESO) will administer nonresident training to both officer and enlisted personnel, active duty and Reserve. This does not apply to Individual Ready Reserve (IRR), Sea Cadet, or NJROTC personnel who will be administered by the Naval Education and Training Professional Development and Technology Center (NETPDTC).

NOTE: Some items in this catalog are not offered to IRRs, Sea Cadets, or NJROTC personnel. Consult the Correspondence Course Center Catalog for selection of products available.

GENERAL INFORMATION

NONRESIDENT TRAINING AVAILABLE FROM OTHER SERVICES

Courses of potential interest to members of all military services are provided under the sponsorship of the Department of Defense. Available to all military personnel, through an interservice agreement, are courses offered by the Air Force, Army, Coast Guard and Marine Corps. Information about nonresident training available from other services is given in the table below. The catalog of a specific service should be checked before applying for enrollment for special procedures and/or eligibility requirements. Personnel interested in subjects given by another service should, THROUGH THEIR SERVICING ESO, correspond with the appropriate agency for up-to-date information.

PART 1

GENERAL NONRESIDENT TRAINING COURSES

ORDERING VIA MILSTRIP

At most commands, the ESO is the focal point for ordering, receiving, grading, and recording the scores of nonresident training courses. Here's basically how the "system" should work: After courses are developed (by chief petty officers in the rating), most are sent to commercial printers (via the Defense Automated Printing Service and the Government Printing Office) for printing. After printing, the courses are shipped to the Navy Inventory Control Point (NAVICP) warehouse at Mechanicsburg, PA, where they are stocked awaiting ESO's requisitions. Courses are generally ordered by using MILSTRIP requisitions. (Page 1-1 of outlines ordering methods.)

SOME TIPS FOR THE ESO

1. Anticipate your command's needs. Place orders as far in advance as possible.
2. Make sure your MILSTRIP requisition is accurate. Double check all fields. Remember: GARBAGE IN - GARBAGE OUT! Use the MILSTRIP Handbook, and refer to the samples on the following page.
3. Use the fastest and most direct means available to transmit MILSTRIP requisitions. (Refer to the transmission methods listed on Page 1-1.)
4. Have a feel for about how long it should take an order to arrive. The more distant a command from the warehouse, the longer it takes for the order to arrive; large orders take longer than small orders; deployed commands should expect some delay in receiving orders. Don't forget about the "**Required Delivery Date**" field in positions 62-64 of the MILSTRIP.
5. Track all MILSTRIP requisitions to make sure each order is filled. Commands with a successful track record in obtaining TRAMANS on a timely basis employ a sound requisition and tracking system. (Use the HOTLINE number provided on Page 1-1.)

SAMPLE MILSTRIP AND EXPLANATIONS

NAVSUP Publication 409 (MILSTRIP/MILSTRAP Desk Guide) provides guidance in preparing electronic MILSTRIP requisition. This desk guide may be ordered using stock number 0530-LP-190-6200.

The sample on the next page provides examples and explanations to assist you in completing MILSTRIP requisitions.

NAVICP provides inventory management and cataloging support for COG 0I and 1I material (Navy publications, directives and forms). Customer Hotline services are available for requisition status and stock availability, off line emergency MILSTRIP requisitions, researching publication numbers, and sources of supply. Additionally, there are two electronic Bulletin Boards to receive digitized text files of MILSTRIP requisitions from customers without access to either DAAS or SALTS, and to provide current requisition status.

DID YOU KNOW???

If you have not received status on your requisition within 5 workdays after it was submitted, we probably never received it. Check with your Supply Office before resubmitting your requisition. This is where we send all on-line status.

You should receive shipment status within 15 calendar days after you received "BA" status. If this does not happen, please contact our Customer Service at commercial (215) 697-2626 or DSN 442-2626 as soon as possible so we can investigate the reason why there was a problem with your requisition. It is important that you notify us of the problem immediately because there is a limited time frame to research transactions from DAAS and NUBS.

PART 5

MANDATORY COURSES FOR ADVANCEMENT-IN-RATE

Part 5 lists MANDATORY course requirements for advancement eligibility. Table 1 lists mandatory Military requirements; Table 2 lists mandatory Apprenticeship requirements; and Table 3 lists mandatory Rating-specific requirements. For simplicity, COURSE TITLES are listed followed by the NAVEDTRA NUMBERS of the training manual (TRAMAN), the course (NRTC), or the combined training manual and course (TRAMAN/NRTC).

The TRAMANS, TRAMANS/NRTCs, and NRTCs listed in Tables 1, 2, and 3 must be ordered by stock number as shown in Part 1 of this catalog. The following numbering system is common:

- TRAMANS and TRAMAN/NRTCs normally start with a 1, such as 10062 or 12100.
- NRTCs normally start with an 8 or 7, and sometimes a 6, such as 82043, 70335, or 62215.
- NRTCs that have no associated TRAMAN normally start with 13, such as 13090.

REVISED COURSES

Candidates are NOT required to complete the *REVISED* edition of a mandatory course if they have completed the previously required edition. For example, an STG2 who has previously completed an STG 1&C course as a candidate for STG1 would not be required to complete the "revised" STG 1&C course for a future exam cycle. However, it is strongly recommended that candidates complete revised courses. Courses that are being replaced by a revised edition remain effective until the CUT-OFF date posted in the Listing of Obsolete Nonresident Training Courses shown in the front matter of this catalog.

ADDED COURSES

If a mandatory course is *ADDED* to the paygrade for which candidates are competing, they must complete the added requirement. For example: an STG2 has completed the mandatory course requirements for STG1, and a new mandatory course requirement, such as NEETS Module 14, is added as a required course for STG1. The STG2 MUST complete the "added" course.
